

# AUS SCRM WG Update

March 2017

- *A pragmatic approach to manage supply chain risks especially for nations who can't force the entire supply chain to be in one place.*

# Whole of AUS Gov

- Australia's Cyber Security Strategy (2016)
- Joint Cyber Security Program
- Australian Cyber Security Centre
- Critical Infrastructure Advisory Counsel – TISN
- CERT Australia
- Australian Federal Australia

# Defence Industry

- SCRM process in development
- Should be based on an existing framework like DEFSTAN 5-138
- Ian Bryant UK WG rep will be travelling to AUS/NZL in April to discuss SCRM, Information Assurance and other related topic with the Defence Industry representatives

# Defence Capability (CASG)

- CASG provides the major capability acquisitions for Defence
- CASG Logistics for acquisitions address Supply Chain risks
- CASG runs a Supply Chain Management in Defence course
  - based on the Supply Chain Councils Supply Chain Operations Reference

# ICT (CIOG)

- Interim low level SCRM procurement advice for;
  - Hardware
  - Software
  - Industry Service Providers, and
  - Cloud Service Providers
- Will be updated as higher level WofAG guidance is released

# 5 Eyes SCCA

- Outcome and goals of the Washington meeting and wider activity
  - as indicated by the CLOG Exec earlier
- From the AUS WG rep the following must be considered/addressed;
  - What ever option is chosen must address the lowest common denominator the smaller nations, and
  - Recognise that exceptions may be required
